THE NEXT GENERATION OF BASALT FIBERS

THE NEXT GENERATION OF BASALT FIBERS.

While nature is constantly evolving and changing, the elements of the earth remain consistent and reliable resources. Basalt fibers have been used since the late 1940's. While originally 'crude' in their applications, they were recognized as having amazing potential in enhancing products.

THIS NEW AND NEXT GENERATION DELIVERS:

lighter in overall
fiber weight

more basalt fibers within
the same material

stronger

more vibration
damping

PACIFIC's exclusive BasaltX® technology – BXT™ has been further developed and optimized in the Lay Up. The new BASALT MAX™ technology offers a unique feedback and control. This results in the highest precision and excellent ball feeling. BASALT MAX™ offers all groups of players optimal ball acceleration with maximum ball control.

Basalt is a natural raw material and therefore environmentally friendly. PACIFIC has the exclusivity on the European fiber from ASA-TEC.

ZERO TOLERANCE

Zero Tolerance is an industry leading feature that insures 100% racket specification consistency. Using the Fischer Vacuum Technology provides players with rackets that are perfectly matched.

FGS
PRECISE GRIP SYSTEM

Precision Grip System – providing the most precise and technical system for grip precision. This gives players perfect feedback for increase performance.

F. A. S. T.

Full Acceleration Shaft Technology.

Engineering the frame geometry to increase “cupping” of the ball on impact with the string bed results in maximum spin.

SPEED ZONE H

Provides maximum ball speed with the highest level of control. Off-center ball striking is virtually eliminated.

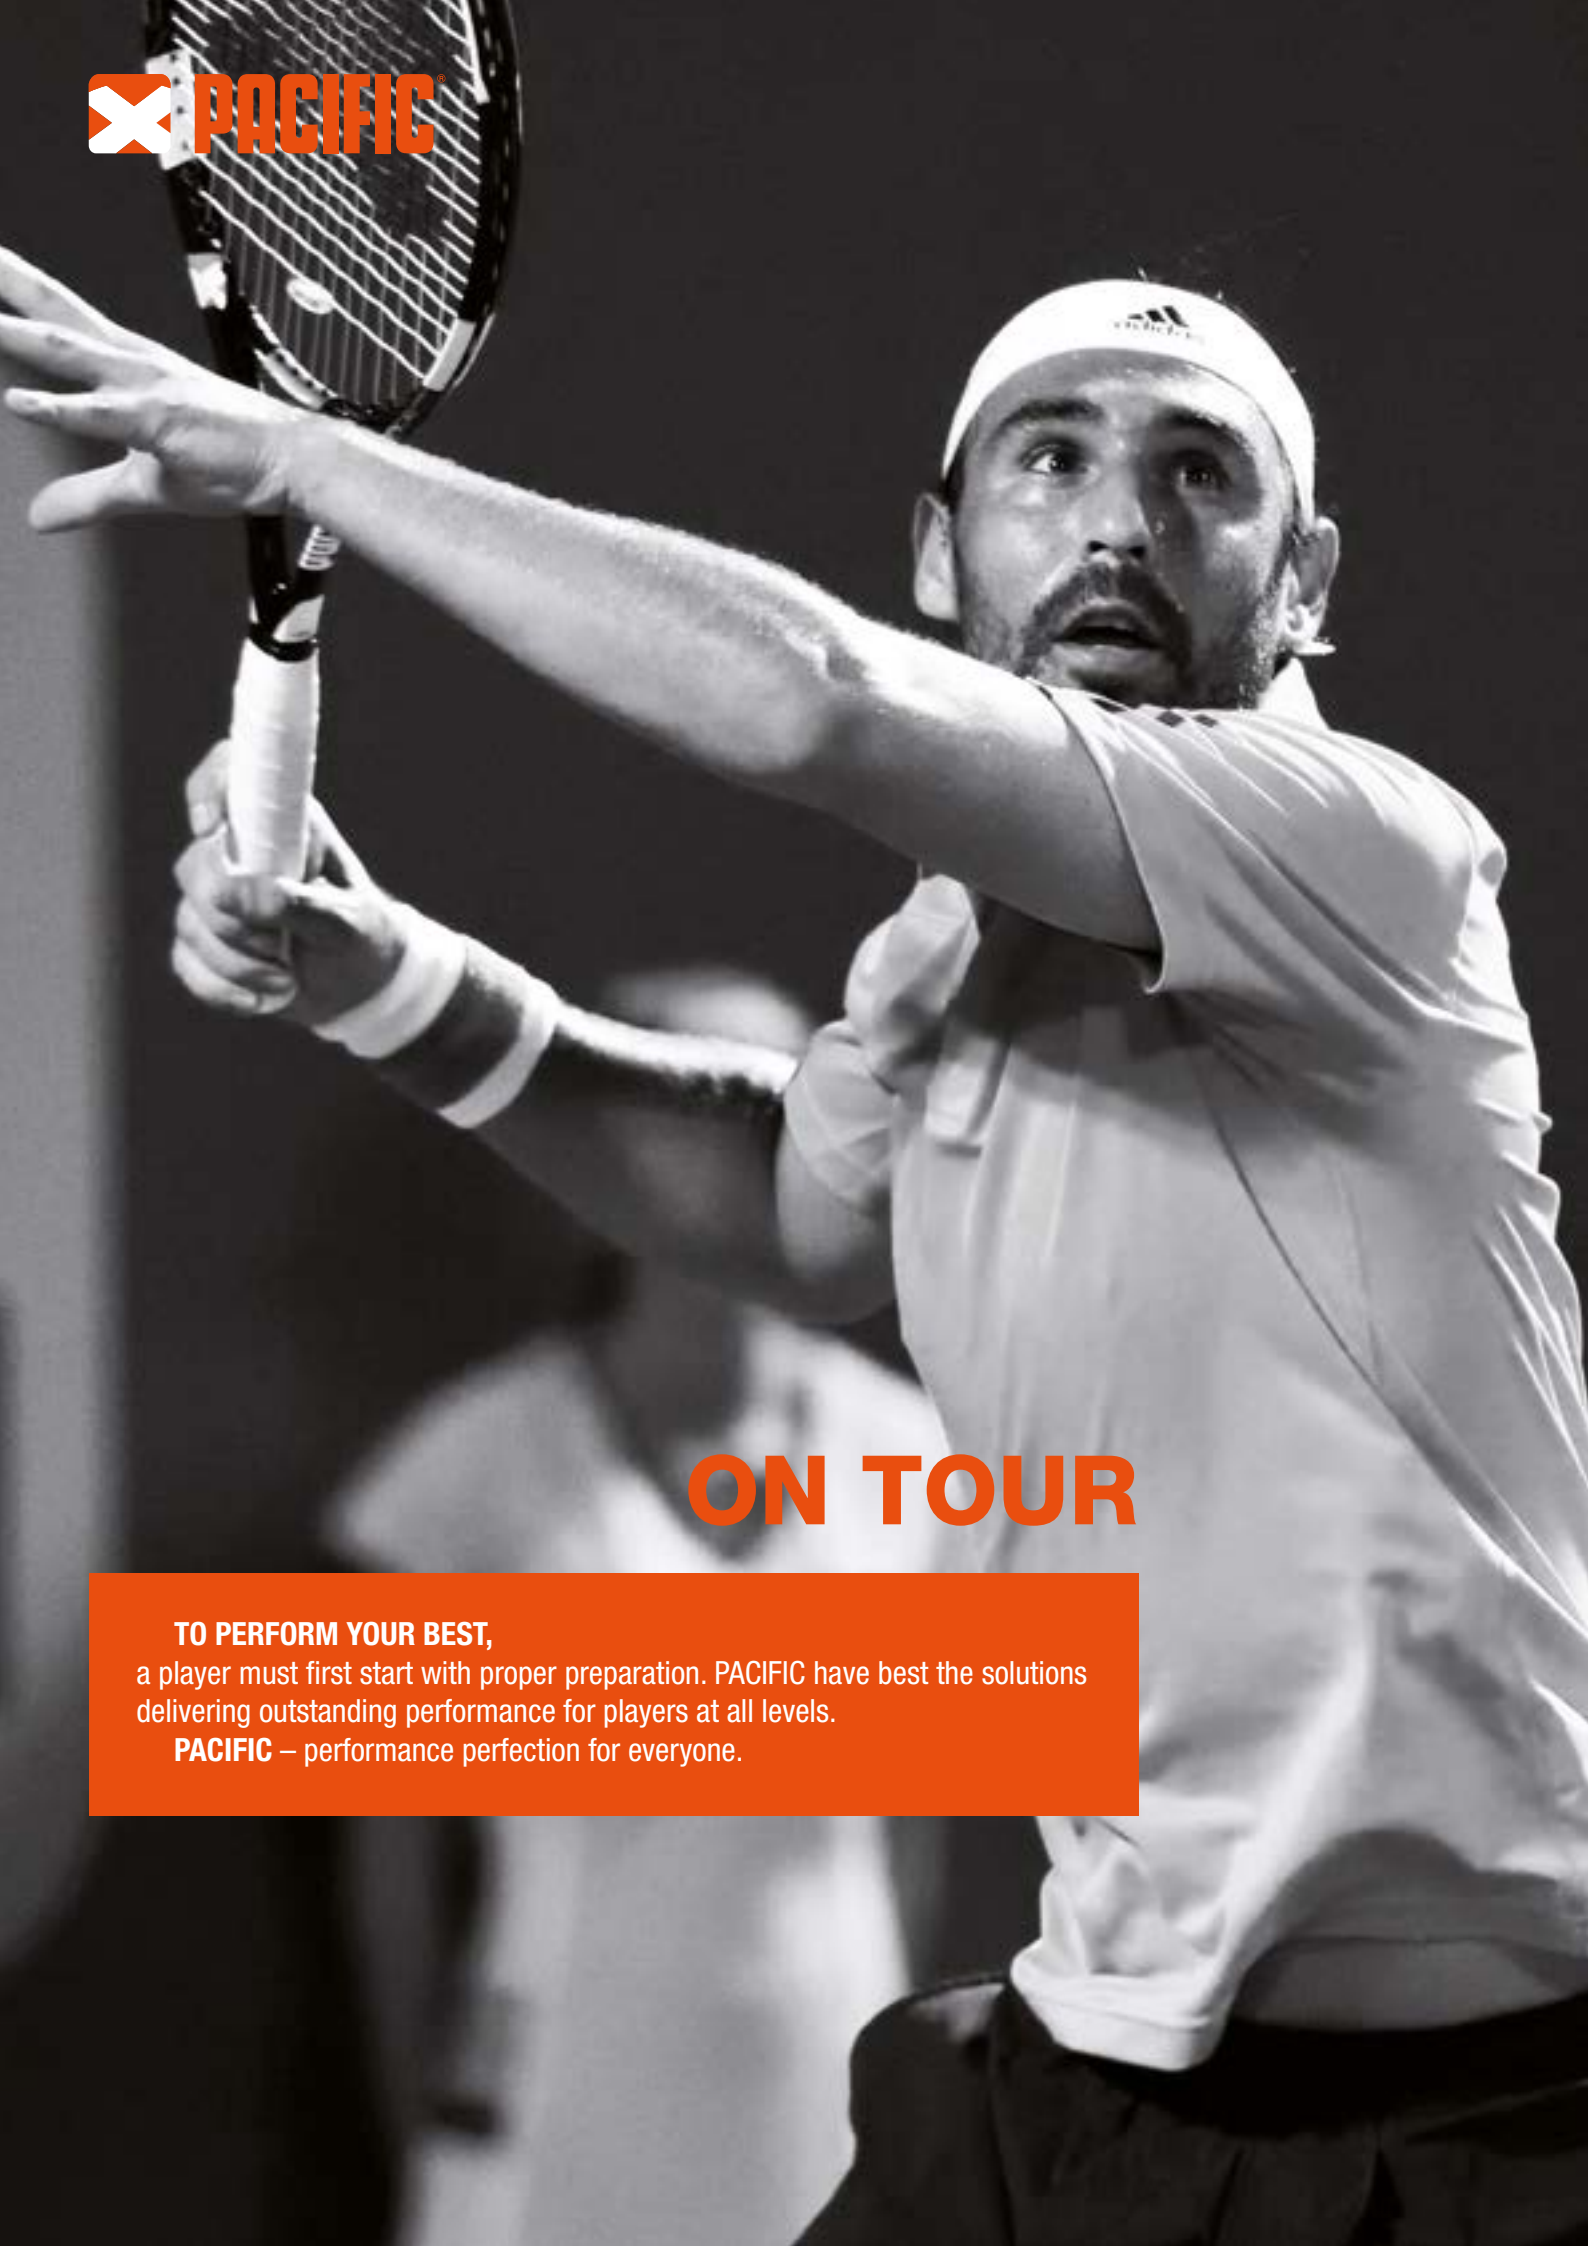

PSS

PACIFIC Stability System providing more stability to the racket head upon impact. With precise positioned weights in the hitting zone, torsional stiffness is greatly improved. The result: maximum ball control with an enlarged sweet spot.

AIR DAMPING Plus

A damping system integrated into the shaft area that minimizes unwanted shock and vibration for a unique and comfortable feel. Provides maximum protection for the arm.

ON TOUR

TO PERFORM YOUR BEST,
a player must first start with proper preparation. PACIFIC have best the solutions
delivering outstanding performance for players at all levels.
PACIFIC – performance perfection for everyone.

X FORCE SERIES

THE ESTABLISHED X FORCE SERIES means performance at the highest level of competition. Favoured by touring professionals, players that seek greater “feel” and accuracy will want the X Force. Offered with technical variations to suit the most demanding players.

TOUR PROFESSIONAL TOURNAMENT SERIES

X FORCE
PRO. 308

Item No.:	PC-0065-23	Head size:	98 sq. in.
Length:	685 mm	Weight:	308 g
Balance:	310 mm	Frameheight:	25/23/20
Grip:	2-5	String Pattern:	16/20
Stiffness:	63	SSI:	6.6

THE TOURNAMENT RACKET FOR PROFESSIONALS

the 308-gram racket designed for the professional level delivering maximum power and precise control. BasaltX® is used in strategic important areas for more dampening and a perfect feel. ZERO Tolerance™ by PACIFIC guarantees the highest precision and quality during the manufacturing production by using the patented and unique Fischer Vacuum Process. The Patented Speed++Zone™ System also increases maneuverability and delivers improved ball speed.

X FORCE
PRO. 292

Item No.:	PC-0067-23	Head size:	98 sq. in.
Length:	685 mm	Weight:	292 g
Balance:	325 mm	Frameheight:	25/23/20
Grip:	1-5	String Pattern:	16/20
Stiffness:	63	SSI:	6.2

THE TOURNAMENT RACKET

The racket focused on the tournament level player. Technically and visually similar to the: X Force® Pro™ model, yet weighing in at a lighter 292-grams for added maneuverability.

X FORCE
PRO No. 1

Item No.:	PC-0072-23	Head size:	98 sq. in.
Length:	685 mm	Weight:	305 g
Balance:	315 mm	Frameheight:	25/23/20
Grip:	2-5	String Pattern:	16/20
Stiffness:	64	SSI:	6.2

**A PROVEN FAVORITE
ON THE PROFESSIONAL TOUR**

Boasting the heritage of numerous Grand Slam Titles to its credit. Ageless in design – the new PRO No.1 welcomes the return to start another chapter of proven success.

PROFESSIONAL PERFORMANCE

INTRODUCING A PERFORMANCE RACKET

that places no restrictions on success.

DEVELOPED BY ACTUAL TOUR PLAYERS

this racket is constructed and tuned with one goal in mind – winning! Good looks aside, tour ready players will advance their game with the X Tour Pro 97.

X TOUR PRO 97

THE X TOUR PRO.97

Built on the successful heritage associated with Fischer Technologies, combined with today's efforts of the PACIFIC Tennis Design & Development Team, a serious new player frame has been created!

Standard in overall length, head-light in balance – designed with a stiffer feel to guarantee maximum controlled power.

F3S
PRECISE CONTROL OBJECT

Item No.:	PC-0056-23	Head size:	97 sq. in.
Length:	685 mm	Weight:	315 g
Balance:	310 mm	Frameheight:	21 / 21 / 22
Grip:	1-5	String Pattern:	16 / 20
Stiffness:	64	SSI:	6.2

Precise Grip System

High Tech Injection Molding

Unlike all competitors using low density / cost effective foam-molded handles, the PGS-System insures that every racket handle is 80% stronger than foam, plus being exact in all actual size dimensions.

Exact
Handle Size

Exact
Weight

Absolutely no shrinkage or deformation

Combining a precise and premium
production process, PACIFIC takes the
technological lead creating PGS.

Precise Grip System Inside

Look for the PGS logo
the mark of
perfection & top-quality!

Guaranteed to provide
you with the precise,
exact grip size & feel.

X FAST SERIES

THE PROVEN FAST PERFORMER

Recently updated X FAST PRO continues to be the trend leader among today aggressive player. The newly crowned “Test Winner” by GER Tennis Mag, proves this racket has earned a place among the most elite players. Anyone eager to advance his or her own game to the next level can do so with X Fast PRO.

F.A.S.T.

FULL ACCELERATION SHAFT TECHNOLOGY

As the frame geometry transitions upwards from the shaft/throat, a reduction in the ‘rounder’ cross-section adds the ‘cupping’ of the ball on the string-bed required to hit with maximum and ‘heavy’ spin.

PACIFIC
XFAST

260 g

Item No.:	PC-0064-21
Head size	100 sq. in. Frameheight 25 / 23 / 22
Length	685 mm Grip 0-3
Weight	260 g String pattern 16 / 19
Balance	335 mm Stiffness 64

Based upon the global success of current X FAST rackets, PACIFIC now adds an ultralight version. Focused at those players either transitioning from a junior racket, or the adult player seeking an extremely lightweight racket for exceptional maneuverability.

XFAST^{TEAM}

**TEAM
PRO JR**

245 g

Item No.:	PC-0146-21
Head size	98 sq. in. Frameheight 22
Length	660 mm Grip 0-1
Weight	245 g String pattern 16 / 19
Balance	320 mm Stiffness 59

The junior version of the X Fast PRO – developed exclusively for the aggressive hard-hitting younger player seeking all the performance benefits of the adult version.

TOURNAMENT TEAM PLAYERS

THE RACKET-SERIES DEVELOPED WITH THE FOCUS TO BE ON THE AMBITIOUS CLUB AND TOURNAMENT TEAM PLAYERS.

Designed with the successful and proven FISCHER TECHNOLOGIE™. Bringing together more power with greater control and maximum comfort.

The newly developed and exclusive BasaltX® Technology is strategically incorporated for perfect control. The Speed++ Zone™ System optimized ball speed.

The Patented Air Damping™ Grip System delivers optimum damping and provides maximum comfort. In this Series ambitious Club and tournament players looking for a professional racket, will find it easy to select their perfect model.

HIGH PERFORMANCE TOURNAMENT SERIES

TO PLAY YOUR BEST

at any level requires quality equipment – products focused in design to enhance your abilities and provide added enjoyment while competing. Together with enhanced designs, exclusive technologies like: SpeedZone, AirDamp, PSS, add forgiveness with additional controllable power and maximizing comfort.

RAPTOR 102

Item No.:	PC-0114-21	Head size:	102 sq. in.
Length:	695 mm	Weight:	285 g
Balance:	330 mm	Frameheight:	24
Grip:	1-5	String Pattern:	16/19
Stiffness:	67	SSI:	4.9

THE TOURNAMENT-RACKET WITH PROFILE FRAME

Energetic and ambitious club players seeking a challenge on the court, now with their equipment will find success with the Raptor. A wider / constant 24 mm frame profile delivers excellent stability combined with enhanced comfort & arm protection. A consistent, positive response with added ball speed is also a major benefit. Anyone with an aggressive playing attitude is a Raptor player. Modern high-tech tennis production is at its best and it is spelled: Raptor!

RAPTOR 107

Item No.:	PC-0123-23	Head size:	107 sq. in.
Length:	695 mm	Weight:	275 g
Balance:	340 mm	Frameheight:	25
Grip:	1-5	String Pattern:	16/20
Stiffness:	67	SSI:	4.1

THE AGILE MULTI-TALENT

Light in weight yet packed with power! This defines the highly maneuverable, yet very comfortable Speed racket. With a larger hitting zone & precision weighting, additional power is achieved. Combined with the patented "Air Damping System" for maximum arm protection. The forgiving PACIFIC Stability System (PSS) increases the sweet spot and reduces instability for off-center hits.

HIGH PERFORMANCE PREMIUM SERIES

THE PREMIUM RACKET

NEXUS

NEXUS – THE EXCLUSIVE SERIES FOR THE MOST SELECTIVE AND DEMANDING TENNIS PLAYING CONSUMERS.

This racket features an overly generous sweet spot, is extremely forgiven and provides maximum ball speed with minimal user effort. This ultra-exclusive series finds all of our top-quality technologies incorporated together in creating the ultimate performance possible within an ultra-light weight racket.

STYXEN

STYXEN

Item No.:	PC-0136-23	Head size:	102 sq. in.
Length:	695 mm	Weight:	260 g
Balance:	340 mm	Frameheight:	24
Grip:	1-3	String Pattern:	16/19

Grip:	1-3	String Pattern:	16/20
Stiffness:	65	SSI:	2.1

NEXUS IS SPECIFICALLY DESIGNED

to be ultra-light in weight, overall longer in length and with an hitting area. The PACIFIC Flagship – Nexus, uses the highest percentage of Basalt® Fibres to optimize the performance. The patented “Air Damping System” reduces shock & vibration, thus assuring maximum arm protection and unmatched comfort. This ultra-light racket provides excellent forgiveness for off-center shots plus effortless power with minimal user effort.

JUNIOR PROFESSIONAL TOURNAMENT SERIES

DEVELOPED TECHNOLOGIE FOR DEVELOPING PLAYERS

Quality and performance are as equally important to younger players as to the tour professional. Having the best racket suited for their current ability, will help them to advance faster to the next level. Tomorrow's champions are being reated today.

ON THE WAY TO THE TOP

TECHNOLOGY FOR BEGINNING PLAYERS

combined in a 'cool' and trendy package. Look your best, play your best!

A younger player doesn't need a racket that is just a lighter & shorter version – they need equipment specifically designed for their needs of today. X Force Team and Finesse Team, are rackets created exclusively to best suit the performance of the younger player – allowing them to improve their game today with the focus to become tomorrow's serious adult player. Comfort, arm-protection, and easy of play are the main design functions found in these models.

BALL TUBE

For ease in gathering up to 15 tennis balls.

THE ENGINE OF THE RACKETS

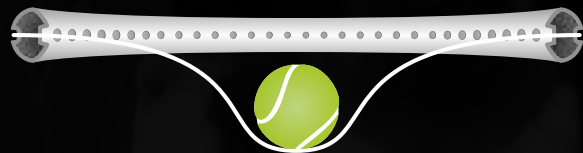

To receive maximum performance from any racket, quality and correctly selected strings are the #1 most important decision every player makes. The driving force behind your game comes directly from the strings – they are the ‘engine’ required for success.

Like any engine, proper care & services are required. PACIFIC recommends that you restring your racket after every 30-hours of play, or at least 3-times per year. Talk with a specialist to learn more about how important proper racket maintenance is.

TENNIS STRINGS

NATURAL GUT

Maximum ball-pocket depth helps retain more of the ball's incoming energy due to the ball retaining more of its original shape.

MULTI-FIBER

Deep ball-pocket for power but not as efficient as Gut – ball is 'flatter' thus, losing more energy than Gut.

SOLID CORE

Commonly referred to as: 'synthetic-gut'. The core with outer-wraps, returns less energy to the ball.

POLYESTER

A longer 'dwell-time' (time ball is on the strings) creates maximum 'flattening' of the ball for more control. Energy return is less – allowing players to use stiffer more powerful rackets for today's game.

 **PACIFIC**

NATURAL GUT

PROVIDING MAXIMUM ENERGY RETURN, enhanced feel, and overall performance that is only available with a Natural Gut String, PACIFIC remains the worldwide leader in the precise manufacturing of premium Natural Gut Strings. Exclusive Technologies combined with superior craftsmanship, continue to make PACIFIC the #1 Rated Natural Gut String as voted on by the USRSA.

**MADE IN
NEW ZEALAND**

TOURNAMENT PRO™ CLASSIC GUT

As its name implies, Classic Gut brings the classic 'feel' and 'performance' of yesteryear Natural Gut. Combined together with today's manufacturing technology – delivering a high-quality Natural Gut string at a very competitive price.

HYBRID STRINGS

**PACIFIC IS KNOWN FOR INVENTING
HYBRID STRING COMBINATIONS.**

Hybrid stringing consists of using different strings in the main and cross strings of a racket.

Hybrid strings are gaining more & more popularity as players are looking for best characteristics of varying string qualities. By selecting different hybrid combinations of string, players can fine-tune the playability, comfort, durability, liveliness and control offered by the stringbed. For example, a hybrid string combination could use a durable string in the mains (e.g. polyester), while a natural gut or elastic synthetic string could be used in the cross strings to provide desired comfort and feel.

POLY GUT™ BLEND

Focused on playability, delivering the best of both worlds. Combining the benefits of natural gut and the performance of polyester. Poly Gut Blend offers a unique combination of 'power', 'control' and added durability.

The #1 most popular string combination found in today's professional tennis.

X CITE™

The FAST string! Thanks to a new material developed exclusively by PACIFIC called PolyCite. Unlike other monofilament strings that have only a linear/single molecular chain to evenly support the energy in and energy out. PolyCite molecules are arranged in a multi-dimensional chain whereas upon ball impact, some molecules are receiving the energy and others are storing it, resulting in 25% greater energy returned to the ball. Optimal spin potential is an added bonus and the tension maintenance is unmatched.

THE GRIP IS YOUR CONNECTION

RACKET PERFORMANCE BEGINS WITH THE CONNECTION TO THE RACKET.

With more than 40+ years of experience, PACIFIC continues to lead the way in racket sport grips. Innovative, quality and with the most diverse selection available, makes it be logical choice for any players. From a wide selection of main (base) grips, to the numerous offerngs of (over) grips – PACIFIC has the perfect grip for you!

RACKET GRIPS

BASIC GRIPS

Often called “Replacement” or “Main Grips” they are the direct connection between you and the racket handle. Responsible for moisture absorption, as well as shock/vibration reduction, the proper selection and care of this grip equals the importance of proper strings. There are numerous styles available – all designed with special technologies to satisfy individual preference.

OVER GRIPS

The most popular accessory for rackets today. With easy installation, the ability to add a new or unique feeling to any rackets is quickly achieved. Durability is not the focus of an over grip – they should be replaced frequently to offer their best performance.

NXS™ PRIME

THE ULTIMATE PREMIUM REPLACEMENT GRIP providing superb moisture absorption and excellent damping comfort. Designed in classy fashion reflecting the highest standards of PACIFIC's NXS Concept.

Color black ● 1 pc. pack PC-3250.00.12

SUPREME GRIP X-TOUCH, 1.80 mm

Extra soft with deep & stylish embossing. Moisture absorption with an optimum cool feeling plus outstanding vibration dampening, making this grip a must for hot climate players.

Color black ● 1 pc. pack PC-3215.00.12

SUPREME GRIP™, 1.80 mm

Ultimate moisture absorption with fast drying thanks to the perforated design and quality PU materials used. Supreme Grip is generously long in length to fit any racquet and with an extra 'tacky' feel, assures long-life and top performance.

Color white ○ 1 pc. pack PC-3210.00.11
 black ● PC-3210.00.12
 blue ● PC-3210.00.18

SUPREME GRIP™ PURE, 1.80 mm

A non-perforated version of the extremely popular Supreme Grip. Featuring the same „tacky“ feel & performance, with added durability.

Color white ○ 1 pc. pack PC-3211.00.11

SUPREME GRIP™ PRO, 1.80 mm

The outer-stitched ‚contour‘ of the Supreme Grip PRO creates an excellent feel on the racquet handle. Perforated for better moisture absorption and faster drying, making this the perfect grip for those who prefer a ‚contoured‘ grip feel.

Color black ● 1 pc. pack PC-3200.00.12

MASTERS GRIP™ CLASSIC, 1.80 mm

An excellent 'tacky' feel with added shock & vibration dampening features. This non-perforated grip focuses on comfort and greater durability. The premium of replacement grips. Featured on the X Force racquet line.

Color white ○ 1 pc. pack PC-3220.00.11
 black ● PC-3220.00.12
 blue ● PC-3220.00.18
 lime ● PC-3220.00.40

POWER TACK™, 1.80 mm

Special surface treatment provides extreme tack and grip. Excellent vibration and shock absorption. Extra durability and optimum control are the benefits of this quality grip.

- Color
- black ● 1 pc. pack PC-3230.00.12
 - blue ● PC-3230.00.18

POWER TACK™ PCP, 1.80 mm

A special surface treatment provides extreme tack while the perforations allow for greater absorption and faster drying. Excellent shock & vibration dampening in this quality, durable replacement grip.

- Color
- black/orange ● 1 pc. pack PC-3235.00.75

X DUO™ FEEL, 1.80 mm

Made from the finest CALFSKIN leather and using a new proprietary tanning process, this traditional PACIFIC grip continues the tradition of presenting players with the finest quality premium leather grip. Extra tacky for excellent grip. Extra lang to fit all demands.

- Color
- white ○ 1 pc. pack PC-3240.00.11

SMASH GRIP™, 1.50 mm

Optimum grip feel and control. Good shock and sweat absorption. A favorite of squash players.

- Color
- black ● 1 pc. pack PC-3265.00.12

X DUO™ COMFORT, 2.10 mm

A new technically superior foam material that is exclusively manufactured with "Capillary Gell Construction" (CCC), is strategically designed like a sponge. The top of the grip is a top-grade PU covering that remains 'tacky' and with a consistent feel. The base-foam material 'wicks' away and absorbs the moisture – together these 2-new materials work efficiently as a DUO.

- Color
- white ○ 1 pc. pack PC-3245.00.11

PRO LEATHER GRIP™, 1.50 mm

Made from the finest CALFSKIN leather and using a new proprietary tanning process, this traditional PACIFIC grip continues the tradition of presenting players with the finest quality premium leather grip. Extra tacky for excellent grip. Extra lang to fit all demands.

- Color
- brown ● 1 pc. pack PC-3031.00.06

THE NEW X TOUR BAG LINE

INCORPORATING STYLE & INNOVATION

Showcasing the BXT technology by PACIFIC. The Bag Line carried by PACIFIC Tour Professionals – making these the perfect compliment to transport your own PACIFIC rackets.

The NEW BXT Bag Line

X TOUR PRO, RACKET BAG 2XL PLUS THERMO

Color black
 1 pc. pack PC-7133.00.12
 Capacity up to 12 rackets
 Dimensions 75 x 36 x 33 cm

- separate, thermofoiled compartment
- breathable shoe and dirty kit compartments
- large outer compartments
- neoprene grips for extreme comfort
- can also be carried as a backpack

X TOUR, RACKET BAG 2XL THERMO

Color black/petrol
 1 pc. pack PC-7143.00.35
 Capacity up to 12 rackets
 Dimensions 75 x 36 x 33 cm

- separate, thermofoiled compartment
- breathable shoe and dirty kit compartments
- large outer compartments
- neoprene grips for extreme comfort
- can also be carried as a backpack

X TOUR PRO, RACKET BAG XL

Color black/petrol
 1 pc. pack PC-7134.00.35
 Capacity up to 6 rackets
 Dimensions 75 x 28 x 33 cm

- separate, thermofoiled compartment
- breathable shoe and dirty kit compartments
- large outer compartments
- neoprene grips for extreme comfort
- can also be carried as a backpack

X TEAM TOUR, RACKET BAG 2XL

Color orange
 1 pc. pack PC-7121.00.41
 Dimensions 75 x 33 x 34 cm

The new X TEAM Tour line stands for exclusivity, performance, comfort and durability. A racket bag for all demands. PU coated soft shell material, 3 separate large compartments, an outer compartment and specially padded shoulder straps are the main features of this exclusive racket bag. Rackets shoes, change of clothes, accessories everything has enough space.

DUFFLE BAG

Color navy/orange
 1 pc. pack PC-7450.00.18
 Capacity 54 liters
 Dimensions 60 x 30 x 30 cm

- Sturdy heavy-weight canvas fabric (water repeilint & soil resistant)
- Wide heavy-duty nylon straps
- Metal buckles with "quick-detach" feature
- Full-length heavy-duty zipper

BXT™ SHOE BAG

Color black
 1 pc. pack PC-7100.00.12
 Capacity 12 liters
 Dimensions 35 x 16 x 22 cm

X TEAM TOUR PRO, BACKPACK

Color orange
 1 pc. pack PC-7128.00.41
